Then, Use **Shift+right click** to open the Powershell window here. Of course, you can also use cmd in Windows and enter this folder.

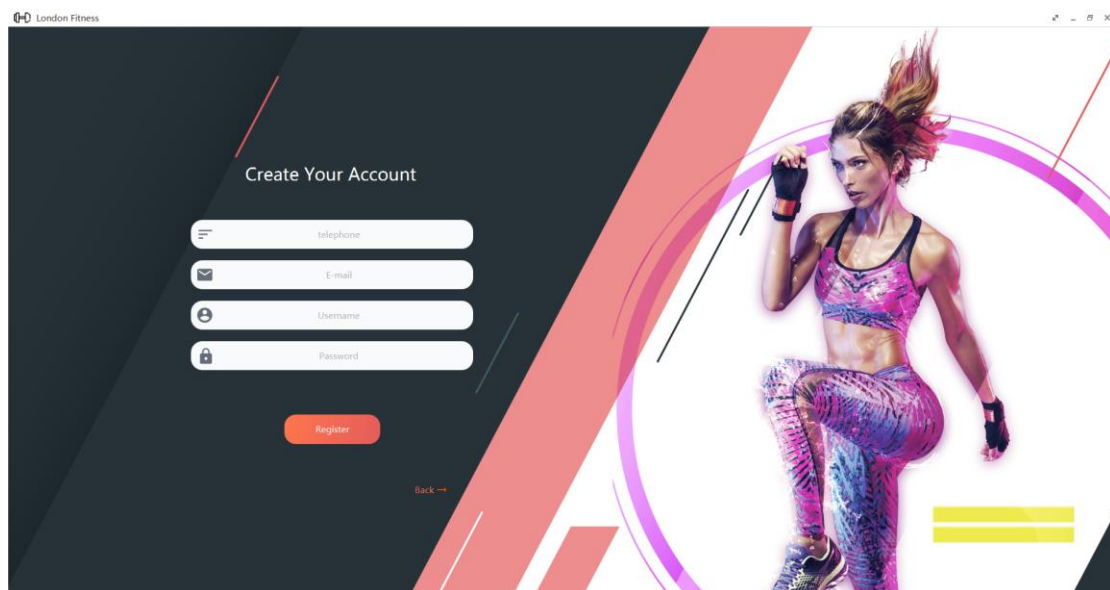

Enter **jre/bin/java -jar E_Gym.jar** to run the program.

In some situations, you may use **jre\\bin\\java -jar E_Gym.jar** .

You can use the test account (Username: qq Password: 123) to login and you can create another account. But remember to follow the correct format. Your phone number should be 11 digits number and your password should be with 6-10 characters containing digits and letters.

It may take few seconds to wait for the program to initialize. Please be patient.
